

Arland Studios - Official Announcement

Project Deciduous, Budget Cuts

We are currently implementing **Project Deciduous** as a part of a series of cost-cutting measures. As we are low on funds, we would deeply appreciate it if you can [donate to us](#) so that we can keep the Arland server running!

All changes listed below will affect all Arland players, effective immediately.

- **Arland will now be seasonal**
Arland will now only operate during Summer and Winter Break (June-August, November-January), as that is when the majority of our players are available to play Arland.
- **Server Limit**
Our new recommended server limit is 6 players. This means that when more than 6 players are online at the same time on Arland server, the server may start to lag significantly. If [Arland becomes more popular](#) or [we receive more donations](#), we may consider raising this limit or improving server performance.
- **Fixing Bugs and Errors**
We are migrating some of our systems, which means some links may be broken. We're working to fix this, but for now, you can report any errors you find to our [Feedback form](#) so we can fix it faster!

We apologize for any inconveniences this may cause for our players, and we hope to find a balance between quality and sustainability in our continuing operations.

As always, thank you for playing Arland!
